

a series of keynote addresses, invited talks, and track presentations, offering a robust platform for academic exchange and interdisciplinary dialogue.

GLS Univ clinches gold at Smart India Hackathon '25

A team from the Faculty of Engineering and Technology at GLS University won the Smart India Hackathon (SIH) 2025, held in Chennai, securing a cash prize of Rs 1.5 lakh for their innovative technological solution. The team's project addressed a real-world coastal research challenge issued by the Ministry of Earth Sciences (MoES) and the National Centre for Coastal Research (NCCR). The students developed Coast Scan, a handheld digital laboratory that aims to transform coastal monitoring by replacing time-consuming manual sediment analysis with an instant, automated scanning system.
